Work Experience

Paysecure Technologies Ltd., Product Manager Mar 2025 – Present

- Led **300+ end-to-end integrations** with global Payment Service Providers (PSPs), acquirers, networks, and third-party service providers, defining clear technical requirements, scalable API flows, and smooth partner onboarding.
- Automated gateway integrations using **LLM-based models** (ChatGPT, Claude, Gemini), reducing integration turnaround time from **2 weeks to 2 days** for **30+ gateways** including Worldpay, Checkout.com, and Stripe.
- Supported **30+ enterprise merchants** during **onboarding** with workflow reviews, technical guidance, & product demos.
- Documented **10+ PRDs** covering features including GooglePay, ApplePay, recurring payments, and **crypto on-ramp, off-ramp** payment solutions for digital asset infrastructure and variable mandate billing.
- Revamped **10+ developer documentation modules** for API-first payments infrastructure, reducing merchant integration errors by **20%** and enabling **4X faster onboarding**.
- Collaborated with a **12-member engineering team, 4 QAs, and 1 designer** on API design, data models, optimized flows, and improved documentation.

Juspay Technologies, Technical Product Manager Aug 2022 – Feb 2025

- Orchestrated **global payment integrations (\$3.4M GMV)** across SEA and MENA regions with a team of 12 developers, 3 QAs and a designer using agile/scrum methodologies.
- Delivered **5+ B2B SaaS** payment features optimising payment flows across 10+ payment methods, compliant with PCI-DSS, AML, and KYC, achieving a **5% increase in Success Rate (SR)**.
- Authored **20+ Root Cause Analysis (RCAs)** and executed **50+ actions**, ensuring **99.9% uptime** and system resilience.

Shaadi.com, Associate Product Manager Jun 2021 – Aug 2022

- Conducted **150+ user calls** and **12 surveys**, identifying key pain points and launching features that boosted **user engagement by 5%** and improved **7-day retention by 5%**.
- Spearheaded **integration of 3 new features**, driving a **15% growth in DAU** and enhancing user interaction on platform.

Infosys Ltd., Specialist Programmer Jun 2017 – Apr 2019

- **Automated** report generation using Java by parsing **1M+ SQL query logs**, **reducing man-hours from 8 hours to 15 mins**.

Amazon, Software Development Engineer Intern May 2016 – July 2016

- Migrated Amazon's Delivery Rule Portal using Java's Spring Web MVC framework, **reducing system downtime by 30%**.
